BOOTH NO.

**A72 Sunaitec · Portugal**

**Product:** Multifunction Solar Structure - RTS Plus

## Fully architecturally integrated solar receivers with increased energy production

**THE NEED.** Current solar panel solutions have high maintenance costs and low profitability due to their fixed position during winter as well as limited duration due to corrosion. They also lack proper architectural integration.

**THE SOLUTION.** Based on a concept that aims to harmonise renewable energy, technology and surrounding spaces, Sunaitec has developed products that enable the capturing of solar energy and its conversion into thermal energy and thermoelectricity, with full architectural integration in various frameworks and with high levels of energy efficiency.

### KEY FEATURES.

- Internet monitoring.
- Smart solar orientation.
- Temperature electronic control.
- Total architectural integration.

### VALUE PROPOSITION.

- 19X solar concentration.
- Energy bill reduction.
- More longevity.
- Reduction of thermal charge.
